

Mocktree Barns - Facilities for our less mobile guests.

Weavers and Kit cottages are both single storey cottages opening directly onto the paved courtyard. They have both been awarded Level 1 under the National Accessible Scheme.

We can offer a number of aids and facilities to help our less mobile guests, which can be used in either cottage.

These are:

- Designating parking 10 metres from the cottage door with access across a flat paved area.
- Vertical grab rails on either side of the entrance door in Weavers.
- No steps within the cottages. Small step at the threshold to Weavers.
- Lever taps or adaptors in kitchen and shower room.
- Grab rails fitted in the shower room/toilet.
- Raised toilet seat
- Frame surround for the toilet
- Step to aid access to the shower.
- Shower stool.
- Perching stool in the kitchen area.
- Charging facilities for scooters.
- Dining chair with arms.

We have been pleased to welcome many people with limited mobility to Mocktree Barns. Some of these have used a wheelchair at times during their visit, but we must emphasise that the cottages are NOT specifically adapted for wheel chair use.

Some advanced warning of any equipment that you may need is very helpful so that this can be placed in your cottage prior to arrival.

We would be very pleased to discuss your detailed requirements with you to ensure that we can meet your needs.
